New Fastrack Automated Processes Reduces Operating Costs

Plainview, NY....Fastrack Healthcare Systems announced a series of new features designed to help providers respond to competitive bidding reimbursement pressures by reducing operating cost through automation.

Fastrack's newest software release features a considerable list of new workflow automation functions to improve productivity. Fastrack clients have the capability to schedule in advance when the system will run key financial reports. The reports are automatically sent by email to all appropriate staff at the time designated. The reports can be scheduled to run daily, weekly or monthly with different data elements depending on the specific report chosen. The sales journal, accounts receivable aging, billing and orders on hold would be among the typical reports that a provider might want to have on a regular schedule to be automatically sent to key personnel.

A major enhancement was made to the billing process which can now be segmented to match the existing processes of the provider offering greater flexibility and control as it

can be run by specific user(s), bill type including Medicare, Medicaid, one or more insurance carriers, wholesale/facility, private pay and/or workers compensation claims as well as type of order such as delivery, exchange, maintenance, etc.

According to Spencer Kay, President/CEO of Fastrack, "We are fully committed to adding software features and technology to help our clients be more efficient with the ultimate goal of reducing their operating costs. We believe this is especially important in light of the reimbursement pressures created by competitive bidding. In addition to the automation features added in this new release, we recently added an electronic response and tracking module to reduce the costs and time involved in dealing with a CMS audit. There is much more to come from Fastrack in 2013 along these lines."

All the new workflow and process enhancements have been added to the Fastrack Enterprise Systems for Home Medical Equipment (HME/DME) and Respiratory providers, Infusion Pharmacies and Home Health Care Agencies.

These features, including the recently released Fastrack Express Billing, will be demonstrated at the upcoming Medtrade show in Las Vegas at booth #843.

Fastrack is the leading supplier of software & technology to Home Medical Equipment providers, Durable Medical Equipment, Respiratory Providers, Home Infusion Pharmacies & Home Healthcare Agencies. Only Fastrack offers a solution for each

individual segment of Home Care as well as one system encompassing virtually every clinical, operational and financial aspect of a provider's business, automating several or all of these product/service lines within one integrated Microsoft SQL database. The screenshot displays the 'Orders Confirmed For Billing Processing' configuration screen. It features three main sections for filtering orders:

- Based on User:** Includes radio buttons for 'By Confirmed By User', 'By Assigned User', 'By User Running Process (Jose)', and 'All Users' (which is selected).
- Bill Type:** Includes radio buttons for 'Medicare', 'Medicaid', 'Third Party', 'Private', 'Wholesale', 'Workers Compensation', and 'All' (which is selected).
- Type of Order:** Includes radio buttons for 'Delivery Orders', 'Pickup Pickup Orders', 'Exchange Orders', 'Maintenance Orders', and 'All' (which is selected).

Below these sections is a 'Search Field' with an empty text input box. At the bottom, there are two tables for carrier selection:

Carrier Number	Carrier Name
1008	AETNA INSURANCE
1014	BCBS OF ALABAMA
1024	BCBS OF MASS
1028	BROADSPIRE, A CRAWFORD CO.
1016	CA MEDICAL
1021	CAPITATED INSURANCE
1031	FT WORKMANS COMPENSATION
1032	GUARDIAN LIFE INSURANCE
1002	MEDICARE REGION A
1003	MEDICARE REGION B
1004	MEDICARE REGION C

The right table is currently empty, and navigation arrows (>, >>, <<, <) are positioned between the two tables.

Fastrack Enterprise System allows providers to configure the system to meet their internal billing processes.
