Fastrack Introduces Lab Tracking

For HME, IV & HHA

Plainview, NY...Fastrack Healthcare Systems announced today the availability of the new Fastrack Lab Value Tracking Module. This module will be made available at no cost to all Fastrack Clients utilizing HME, Respiratory, Home Infusion Pharmacy and Home Healthcare Agency Enterprise software systems including those licensing the software to run on their own servers as well as those on the SaaS (Internet Hosted) model.

Key Features/Benefits:

- Lab Values can be set up with a “normal or acceptable” minimum and maximum range upon entering a value the system will highlight in red those values outside the acceptable range.
- Utilizing the Fastrack Forms Designer providers are able to modify the Fastrack Lab results forms that can be provided to the patient. Various templates can be defined by the user in order to group lab values together for printing out results for the patient.
- Lab values can be accessed in the patient, Rx, Rx refill, nursing, orders and plan of treatment screens.
- The system maintains a history of all lab results and the user associated with the entry.

According to Spencer Kay, President of Fastrack, “The lab tracking is just one of a number of new features that will be introduced to enhance the clinical component of our Home Medical Equipment, Respiratory, Infusion Pharmacy and Home Healthcare Agency Systems.”

Fastrack is the leading supplier of software & technology to Home Medical Equipment providers, Durable Medical Equipment, Respiratory Providers, Home Infusion Pharmacies & Home Healthcare Agencies. Only Fastrack offers a solution for each individual segment of Home Care as well as one system encompassing virtually every clinical, operational and financial aspect of a provider’s business, automating several or all of these product/service lines within one integrated Microsoft SQL database.
