"Although we have been Fastrack users for over 12 years, we are still learning new things. We are constantly looking for ways to improve our processes. Fastrack's WebEx has been a great way to get to know the system better and find out what we've been missing. Sometimes we get caught up in our processes and don't realize that Fastrack has developed a new release that helps us! I have learned something new in each training session! Fastrack trainers know the product and convey that knowledge during these sessions."
